

**CATHOLIC
MUTUAL GROUP**

TAKING CARE. SAVING LIVES. (AED TRAINING)

What's Included?

This 13-minute video provides education about Sudden Cardiac Arrest (SCA) and the importance of responding quickly and effectively in emergency situations.

The use of Automatic External Defibrillators (AEDs) can make the difference between life and death, so this training also highlights the need for appropriate device placement, awareness, and proper maintenance to ensure these life-saving devices are readily available when needed most.

To have these trainings added to your customized platform, please contact CMG Connect Support at <https://CMGconnect.org/> via the  **Support** button located in the bottom right corner of the page.

For more information, please contact your
Risk Management Representative
